

# Waimea Trails and Greenways

## MEETING NOTES

November 28, 2005

PRESENT: Clem Lam, Avi Okin, Jim Lutter, Lynn Taylor, Tommy Sing

1. Carter Center revetment: Avi will contact Carolyn Wong or Matt to get the design requirements for the civil engineer. Avi will contact Kaz once he has more information.
2. Ben Discoe volunteered to use his own money to pay for his cheap labor to help him clear debris from the trail area at Carter Center and in the Nature Park.
3. Parker Ranch - Kaz said there is a problem across from Sandalwood where the property descriptions of the Sandalwood properties are not necessarily to the middle of the stream but in straight lines. It seems to make sense that we follow the property lines of the Sandalwood properties - James told Shirai he is going to think about how he wants to proceed.  
There is another problem at Opelo Road area by Peggis but Kaz was not sure what that problem was.
4. Kaz is going to call Greg about how the State Ag piece is going with DLNR.
