

Waimea Trails and Greenways

MEETING NOTES

May 22, 2006

PRESENT: Clem Lam, Peggi Kamisato, Lynn Taylor, Avi Okin, Keith Wallis, Laura Dierenfield

1. Magoon - County - Catholic Church - the completion of this did not meet the May 17 deadline. Kaz talked to Diane Noda who said she did not receive any signed documents. Clem called Keoki Magoon after the meeting. He said he talked to Jim Sogi but he did not check his mail to see if he got any documents. Keoki said he wants to sign them at the escrow company and will put this on the top of his priority list. **Someone (Alan Okamoto?) needs to follow up with the Catholic Church.**
2. The surveyor has completed the Lanakila Park survey and together with the other Parker Ranch parcel surveys, Roy Takemoto will meet with Riley Smith to come to an agreement on park credit for their development.
3. State lands: Nature Park and Lalamilo Research Station - we have to wait for the State surveyor to review our survey for the easements.
4. Honu Triathlon - Avi, Keith, Laura and Clem will work as bike course volunteers - we need to meet at the King's shops Star Bucks between 7:00 and 7:30 to get assignments.
5. Money - Path is keeping a separate account for Waimea Trails and Greenways money that was donated from Lava Man. Laura will find out how much that is and Peggy will keep track of it.
6. Laura reported that the Safe Routes to School program is trying to get up to 2 million \$ for Waimea School to improve pedestrian drop off and safety to the school - Cindy Evans and traffic engineers met outside the school today to discuss the project.
7. Parker school - we met with them in April - in June of July they should be in a position to make a commitment to the trail. Kaz has the survey.
