

# Waimea Trails and Greenways

## MEETING NOTES

June 20, 2006

PRESENT: Clem Lam, Lynn Taylor, Keith Wallis, Avi Okin

1. Magoon - County - Clem met with Roy, Kaz, then James Komata at a separate meeting to discuss the trees that Magoon wants cut. Clem also met with Magoon who identified about 16 eucalyptus trees to be cut. Jame is preparing a request for proposals. Clem and Keoki will identify the trees by marking them when James gives Clem the word. Clem has contacted the Outdoor Circle to let them know we are working on this tree removal. Clem contacted Keoki Magoon to tell him the County is going to remove these trees.
2. Catholic Church - Kaz will follow up with Roy to follow up with the Church to see where they are at with the exchange deed.
3. South Kohala traffic Safety committee has been circulating emails that express frustration and support at the same time for the WT&G project. Frustration that the trail is not on the ground and seemingly bogged down, support in that they see it as a traffic reliever for Waimea. Clem has invited the presiden Mike Price to come to our meetings to see what is happening - has not responded - could be on vacation.  
Peggi suggests a letter to the Mayor and publishing in the newspaper. Trying to rally support from the public to get this thing done. Somehow push the process, rattle some cages - get the idea???
4. Lynn met Pat Englehard at a gathering after a recent funeral and had a chance to talk to her about WT&G - Lynn will follow up with a letter.
5. There is a large branch that fell from one of the eucalyptus trees behind Carter Center on the trail - ask Ben to remove it - he can take away the other eucalyptus branches he wanted that are still there at the same time.
