

Waimea Trails and Greenways

MEETING NOTES

July 10, 2006

PRESENT: Clem Lam, Lynn Taylor, Keith Wallis, Jim Lutter, Peggi Kamisato, Ben Discoe, Avi Okin, Bob Hunter

1. Magoon - County - James is going to put out the request for proposals for cutting the trees - end of fiscal year is causing some time delays. Outdoor Circle will respond in writing their concerns about the tree cutting. Avi will follow up with NRCS to inform them of the cutting request on these trees and impact on drainage and stream stability.
2. Bob Hunter presented a revised resolution for the SKTSC to consider. He read it to the WT&G committee and reactions were positive to what it had to say. The committee felt that the more the community comes out with support and demand for the trail, the more pressure it will put on the County and consultant. The SKTSC meeting tomorrow has much on its plate and Bob did not think they were going to get to WT&G - will try to attend one of their meetings where they can devote a portion of their meeting to the topic.
3. Parker Ranch - things to do by various consultant team members - hope everyone has their assignments and is acting and following up on them.
4. This month we need to approach Parker School - Kaz, can you set that up?
5. James Komata directed Kaz to complete the design work on the trail - Bruce is to start.
