

# Waimea Trails and Greenways

## MEETING NOTES

April 2, 2007

PRESENT: Clem Lam, Keith Wallis, Leningrad Elarionoff, Peggi Kamisato, Lynn Taylor

1. Clem, L\Kaz and James will present a trail status report to the Waimea Community Association on Thursday, 5:00 at the Keck meeting room. Clem will give a brief overview of the trail:
  - How the process got started
  - Funding and County involvement
  - Consultant
  - Long process working with landowners
  - How vital this is to the community for traffic relief
  - Green corridor in the heart of Waimea
  - Help needed immediately - writecall or email your Councilman, Mayor, Director of Parks and Recreation to urge them to hasten this process
  - Help needed in the future - adopt a trail - community will do the maintenance, policing, clean up
2. State surveyor has reviewed and approved the survey for the Lalamilo Research station and the Nature Park. They have not yet done the State land behind Keck. Kaz will call and make sure these 2 parcels are completed immediately and not wait for the surveyor to approve the last piece. Kaz - when can you do that by? This week?
3. Agreement with PATH - We discussed the agreement - there will still be a fee we will have to pay to have the Bank keep our money. The good part is we will not have to do the income tax filing. We have agreed to the terms of the Memorandum and Clem will sign this and return it to Laura to give to PATH.

cc. Kaz Shigezawa, Greg Mooers, James Komata
