

# Waimea Trails and Greenways

## MEETING NOTES

March 24, 2008

PRESENT: Clem Lam, Lynn Taylor, Avi Okin, Laura Dierenfield, John

1. For the past 3 meeting we have been walking the trail corridor from Kahawai Road to Carter Center. For the most part the trail corridor of Increment 1 has been surveyed and tagged with blue ribbon. In thick brush areas, the surveyors have cut a swath so they could do their work. Our purpose was to see if we could find the corridor on the ground for our work day clean up - the surveyors work made it very easy. The area through Kanu O Kaaina school is impassable because of a fence.
2. James Komata has not returned numerous phone calls and email requests for responses in over a month. the questions we have for him are - what is the consultant status on completing the Increment 1 construction documents, on easements east of Lindsey Road and Corp Counsel on WOC approval of easement?
3. Today we testified at a County Council public input meeting on the proposed budget.
  - Parker Ranch land committed to the trail should remain for the trail and not be diverted to the Waimea Park.
  - Lindsey Road Bridge is going to be redesigned - the Trail should be accommodated under the bridge for a safe passage connecting the trail with accesses to Lindsey Road.
  - Resurfacing projects and new roads in Waimea and elsewhere should have bike and ped accommodations.
  - Support for bike ed coordinator for the island
