

# Waimea Trails and Greenways

## MEETING NOTES

February 8, 2010

PRESENT: Clem Lam, Peggi Kamisato, Avi Okin, Leningrad Elarionoff, Vicky Mission, Carol Hendricks, Fran Tabor, Bill Sanborn, Bob Hunter, Bobby Command, Bob Fitzgerald, Glenn Kimura, Leslie Kurisaki

1. Consultant - Kimura International is here for the kickoff meeting.
  - NEPA level EA requires looking at alternative routes - he will call us to look at these
  - Connectors to destinations in town will also have to be targeted
  - purpose and need will have to be documented and justified
  - Kimura does not yet have a signed contract to do the work
  - Has ordered an aerial survey for a swath 1000 feet wide along the trail
  - Look at historic properties
  - look at cultural impacts
  - endangered species
  - ADA compliance
  - Kimura will work on a schedule for their work and get it to us before the end of February
2. This does not insure that we will get Federal funding or get on the STIP but it puts us in the position to have that happen
3. WorkDay
  - still the committee's focus
  - Bobby Command will look into the fence issues - if its in the flood zone, jeopardizing federal funding (Glenn doesn't think so)
4. Easements - Asked Bob Fitzgerald who will be working on obtaining the easements east of Lindsey Road - this was supposed to be the work of Kaz - he will investigate if there is money left to do that, if so who will do it.

Clem Lam  
cc. Bobby command, Bob Fitzgerald
